

# MIDI Nickelodeons

## Build Your Own Nickelodeon

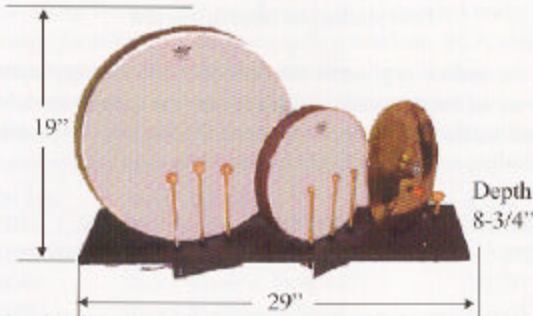

Everything you need to convert your piano into a Nickelodeon!

### MIDI Nickelodeon Kit

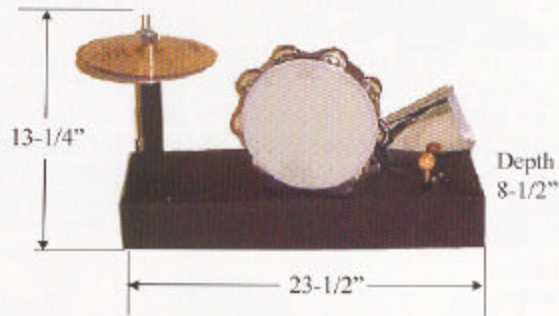

The MIDI Nickelodeon Kit includes three shelf units as shown plus a Pianomation kit consisting of a special processor, power supply, note driver boards, solenoid rail for activating piano keys, speaker, nickelodeon lights, wiring harnesses and various brackets to assist in mounting the unit. User interface sold separately. A coin acceptor mechanism can be added.

One shelf unit houses the castanets, triangle, finger cymbals, Glockenspiel and wood block. Activation solenoids are housed underneath the shelf and are prewired. Two screws hold the unit in the piano. Shelf is easily removed for tuning.

Two shelf units (which are usually mounted in the bottom of the piano) house additional percussion instruments. The bass drum, snare drum, and cymbal are on one. The other shelf houses a top hat, tambourine and cow bell. Activation solenoids are housed underneath each shelf and are prewired. Two screws hold each shelf unit in the piano.

Cat No.	Description	Price
71212	MIDI Nickelodeon Kit	\$3,975.00
75390	CD2000 User Interface	550.00

### Nick Accompaniment Systems

Here's a unique product fabricated with the use of our MIDI Nickelodeon Kit. The instruments are mounted in the rim of a grand piano. The associated Nickelodeon electronics are mounted below the instrument panels. This unit is 62" square with a depth of 12". Unit weighs about 200 pounds including a leaded glass facade and can be configured to be free standing or wall mounted. Custom glass can be made. Ask for a quote and details.

The unit is controlled from a Pianomation equipped piano through the use of a wireless system which is included.

Cat No.	Description	Price
20256	Nick Accompaniment System w/Wireless	\$6,405.00

### Coin Acceptor

The optional coin acceptor is designed to work with the CD2000 drive. When a coin or coins are dropped through the coin mechanism which is connected to the coin detect port, the pulse adds a credit in the processor memory and transmits random song play to the CD2000.

Cat No.	Description	Price
38110	Coin Acceptor	\$995.00
